AQUALITY POOL & SPA

THE PROFESSIONAL'S #1 CHOICE

METAL CLEAR

Made from Natural sources and is highly concentrated to remove metals from Pool Water. 100% biodegradable and will help to eliminate purple line caused by Copper staining. Works with all types of sanitizers including salt water systems.

DOSAGE

For a 50m^3. Clean pool as normal and backwash filter as per manufacturer's instructions. Ensure all balances are correct. Brush all areas of the pool especially stained areas. Add 500ml of METALCLEAR to a bucket of water and distribute around the perimeter of the pool. Run pool pump for 4 Hours and then switch off. After 24 hours vacuum the pool to waste and then backwash filter. Return pool to normal filtration. If staining returns repeat again.

POOL BALANCING

Always ensure that your pool is correctly balanced:

- **Chlorine:** 1-2ppm
- **pH Levels:** 7.2-7.6
- **Cyanuric Acid** (Stabilizer): 30-80ppm

SAFETY PRECAUTIONS

- After eye contact: Rinse out with plenty of water with eyelid held wide open. Call a physician.
- After skin contact: Wash off with penty of water. Remove contaminated clothing.
- After ingestion: In case of indisposition call a physician.
- Keep away from children
- Store in a dry place away from direct sunlight and heat
- Never mix with any other chemical
- Please use all pool chemicals responsibly and consider the environment.

PRODUCT CONTAINS: Specialy formulated Chitosan Blend

POOL VOLUME (ltr) ΧΩΡΗΤΙΚΟΤΗΤΑ (λτρ)	50,000	75,000	100,000
